## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 9-15 based on non-elected claims filed on 4/14/2005.

### ***Allowable Subject Matter***

2. Claims 1-8 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claim 1, the prior art alone or in combination does not teach the limitation of a solid electrolytic capacitor comprising a metal layer formed on and **in direct contact** with a surface of a dielectric. *It is noted that a metal layer are common formed on and in direct contact with a surface of a dielectric layer in other capacitor such as, ceramic capacitor but have not been found in the **solid electrolytic capacitor**.*

Claims 2-8 variously depend from claim 1, they are allowed for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Response to Arguments***

3. The applicant has argued that Fujiwara and Asami are silent with respect to a solid electrolytic capacitor comprising a metal layer formed on and in direct contact with a surface of a dielectric. The examiner finds this argument persuasive. Therefore, the examiner made decision to allow this limitation over the prior art of record.
